Dear Andreas Gregoriades,

Thank you for your registration to ICEIS 2020.

Please find below the data pertinent to your registration (ref. 61255)

--- Registration Items ---

Conference Early Registration: 535€

- 22nd International Conference on Enterprise Information Systems (ICEIS 2020)

Paper # 61: A data analytics approach to online tourists' reviews: included in registration

INSTICC 2020 Membership: free

Registration Amount: 535.00€ (EUR)

--- Invoice/Receipt Information ---

VAT number:

Addressed to: Andreas Gregoriades

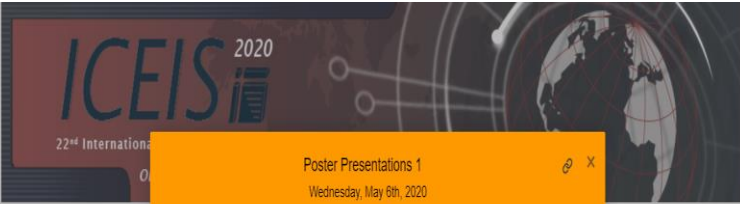

Address: 20 Damagitou

Limassol

3081

Cyprus

--- Payment ---

# ICEIS 2020

22<sup>nd</sup> International Conference on Engineering and Information Systems

**Poster Presentations 1**  
 Wednesday, May 6th, 2020  
 16.00 - 17.00

Day: **All** Tue 05 Wed 06 Thu 07

Types: **All**

Foyer

PRESENTATIONS:

- Situation-aware Building Information Models for Next Generation Building Management Systems**  
Speaker: Ovidiu Noran Databases and Information Systems Integration
- Recommender Systems based on Scientific Publications: A Systematic Mapping**  
Speaker: Isabela Pascanu Software Agents and Internet Computing
- A Data Analytics Approach to Online Tourists' Reviews Evaluation**  
Speaker: Andreas Gregoriades Databases and Information Systems Integration
- Efficient Representation of Very Large Linked Datasets as Graphs**  
Speaker: Verena Kaniere Databases and Information Systems Integration
- An Effective Parallel SVM Intrusion Detection Model for Imbalanced Training Datasets**  
Speaker: Jing Zhao Information Systems Analysis and Specification
- Ontology-based Question Answering Systems over Knowledge Bases: A Survey**  
Speaker: Valeria Magalhães Pequeno Artificial Intelligence and Decision Support Systems
- A Model for Evaluating Requirements Elicitation Techniques in Software Development Projects**  
Speaker: Naiara Cristiane Aften Information Systems Analysis and Specification
- A Framework for Sustainable and Data-driven Smart Campus**  
Speaker: Zeynep Nur Koselepen Enterprise Architecture

# CAISE'20

32nd International Conference on Advanced Information Systems Engineering

**Grenoble, France, June 8-12, 2020**

Dear colleagues,

We are glad to inform you that the CAISE'2020 registration system is now open.

As you know, due to the COVID-19 situation, CAISE'2020 will be digitalized. This means that besides online proceedings there will be pre-recorded presentations, virtual sessions, chats, etc. We are working hard to make CAISE'2020 a success!

Registrations are **free** for all participants who are **non authors**. However be careful: registration is mandatory. Only those who register will be able to access the material and attend the virtual events of the conference!

**Authors**, please register in due time: registration is a condition for the publication of your paper in the proceedings. Registrations fees have been reduced, there should be one paying registration per paper. Therefore, only one author needs to pay per paper. However, the other way round, a paying registration is only worth for one paper. As a consequence, if you are the author of several papers, your registration is worth for only one of these papers and one of your co-authors needs to make a paying registration for each of the other papers.

To: Andreas Gregoriades;

• You forwarded this message on 3/27/2020 1:01 AM.

Dear Andreas,

Thank you for your submission to the ISESL'20 Workshop. We are pleased to inform you that your paper Combination of Topic Modelling and Decision Tree Classification for Tourist Destination Marketing has been ACCEPTED.

Congratulations!

Copies of the reviewers' reports on your paper are appended below. You are expected to consider the suggestions and comments made by the reviewers in preparing your final submission.

In a few days we will send you the information about how to prepare and submit the final version of your paper. The deadline for submitting the camera-ready copy of your paper is April 7.

Further, we wish to draw your attention to the fact that due to the COVID19 situation, the CAISE'2020 conference and the associated events in presence are canceled. The CAISE'2020 virtual conference is now being prepared. The information about authors registering will be sent soon.

In case you have any question do not hesitate to contact us.

Sincerely,

Elena, Eric, and John  
ISESL'20 Chairs

SUBMISSION: 256

TITLE: Combination of Topic Modelling and Decision Tree Classification for Tourist Destination Marketing

----- REVIEW 1 -----

SUBMISSION: 256

TITLE: Combination of Topic Modelling and Decision Tree Classification for Tourist Destination Marketing

AUTHORS: Evripides Christodoulou, Andreas Gregoriades, Maria Pampaka and Herodotos Herodotou

----- Summary of the paper -----

This paper demonstrates how to feed a decision tree by learning edges and nodes from a sentiment analysis of customers' review from TripAdvisor in order to pre-  
not a touristic destination in Cyprus and according to which theme discovered by topic modelling
