

Lemesos, 15 June 2020

Invitation

Your company or organization is invited to consider a unique partnership that will provide you with the opportunity to reach out to a wide range of members from the global community working on Soilless Culture and Hydroponics. Come and increase your presence within this community by participating in the upcoming **III International Symposium on Soilless Culture and Hydroponics: Innovation and advanced technology for circular horticulture** to be held from 19th to 22nd of March 2021 in Lemesos, Cyprus.

The conference, under the aegis of ISHS, the International Society for Horticultural Science and with the support of Cyprus University of Technology and University of Turin is certainly the most important international event on Soilless Culture and Hydroponics, with participants from different countries.

The symposium is organised online, through an interactive conference platform, will have a particularly strong contingent from Italy, Spain, France, Netherlands, and Israel, leading countries of the Soilless Culture and Hydroponics sector in terms of research, innovation and production. A relevant amount of participants is also expected from Americas, Asia, Middle East and North Africa.

The Hydro2020 conference will draw together research and business, young researchers and established scientists, industrial processors and suppliers, horticultural producers and supply chain actors. Governments and institutions participation is also expected.

The Hydro2020 provide unique opportunities for the private and public horticultural sector to reinforce visibility, to enter a knowledge and innovation exchange platform, to develop and strengthen networks, seek business opportunities and to prepare for future challenges.

Sponsors virtual exposure

A digital tool for Sponsors exposure giving the opportunity for logos display, company profile, acknowledgments)

Meet the Exhibitor

A digital tool for Exhibitors giving the following opportunities:

- PDF file (ideal for new products/Launch)
- Link for website
- Video (link provided)
- Logo on the "Exhibitors" area
- Opportunity for live discussion
- Contacts exchange with attendees

The International Society for Horticultural Science has over 7,000 Individual Members from all over the world, a substantial number of Institutional Members and some 50 Member States/Countries. It is a major source of up-to-date information on global horticultural research. It encourages the development of international co-operation, bringing together scientific and technical professionals to stimulate, facilitate and co-ordinate research and scientific activities on a global scale

The aim of the ISHS is "...to promote and encourage research and education in all branches of horticultural science and to facilitate cooperation and knowledge transfer on a global scale through its symposia and congresses, publications and scientific structure." Membership is open to all interested researchers, educators, students and horticultural industry professionals

Format of the Conference

The III International Symposium on Soilless Culture and Hydroponics: Innovation and advanced technology for circular horticulture aims to promote scientific progress, to stimulate free exchange of ideas and findings, and to publicize progress in Soilless Culture, Hydroponics and Aquaponics. Scientists, Stakeholders, Corporates, Business companies are invited to attend.

Program format

Oral presentations will represent the core of the Hydro2020 conference as it occupies a significant portion of the program. Poster sessions with flash presentations and thematic working groups are planned as well. This set up will provide a maximum exposure to contributed results and allow participants to online meet and exchange ideas.

Plenary lectures will be provided by leading scientists and professionals chosen by the scientific committee, and speakers contributions will be selected to acknowledge significant recent progress.

CONFERENCE OVERVIEW

Delegate Profile

The Hydro2020 conference is the most important event for the specific Soilless Culture and Hydroponics field. More generally, it is also a leading event for horticulture, aquaponics, food nutrition and safety. The program will canvas the whole supply chain of the Soilless Culture, Hydroponics and Aquaponics production, from field-to-fork.

Oral presentations and poster exhibition will illustrate the results of the research and the latest achievements in the following 5 main conference topics (1) Circular hydroponics/Saving resources/Recycling resources, (2) Conversion to Closed Systems, (3) Aquaponics, phytotronics and bioponics based systems, (4) Quality and nutritional aspects of soilless grown products for the consumers (5) Organic hydroponics, from leading scientists and professionals from 5 continents. World recognized experts will be invited and perform plenary lectures on specific topics and thematic workshops will take place to address business related issues.

Sponsorship opportunities

A diversified and accessible offer for your visibility and PR

If you would like to present your company to an international clientele, we can offer you the appropriate sponsoring cooperation. Our sponsoring offers are separated into the categories diamond, platinum, golden, silver and bronze sponsor as well as supplementary sponsor. Sponsor benefits on such proposals are adjusted to the categories above depending on the size of sponsorship.

Why partner with this unique event?

The III International Symposium on Soilless Culture and Hydroponics: Innovation and advanced technology for circular horticulture is an opportunity for companies, organizations and governments to contribute to the advancement and development of important scientific and technical issues related to the field of Soilless Culture and Circular Horticulture.

The conference represents an opportunity for companies involved in the Soilless Culture related fields to high light and showcase their products, services and expertise in this field. It is also an occasion to expand their contacts, build business or scientific relationships. The attendance of young scientists gives opportunities for contact and recruitment.

Many options were defined to provide our sponsors the best opportunities to demonstrate their leadership in their field of work and their contribute to the Soilless Culture community, to benefit from the conference visibility in a variety of media, to network closely with academic and organization leaders, to promote their goals and objectives for future development in the field of Soilless Culture and Hydroponics.
