

Transform Your Perspective Transform Your Working Style @ Cyprus University of Technology

Everyone is born with unique strengths that help them thrive in the world. Sometimes, they're front and center, and just need a little polish. Other times, they're concealed by uncertainty and need to be coaxed into the open. Dale Carnegie helps people from all walks of life become fearless. Whether they're starting out or stepping up, learning to lead, or heading up a team, we sharpen their inner voice and use it with confidence to get the most out of their life and their work.

The **Dale Carnegie – Skills for Success** program shows people how to communicate in a way that draws others in so they can form closer, more rewarding relationships in their personal and professional lives. As they gain greater influence with the people around them, they'll come face to face with more opportunities to make meaningful contributions in the places that matter most.

The success of your department hinges on two crucial factors – your team's performance and your own skilled leadership. Without them, getting things done and done well becomes a losing battle. Dale Carnegie draws out each person's natural strengths to help them take command of their roles. Building courage and confidence, we invigorate your employees and help you enhance your own management style to elicit the best your team – and your career – has to offer.
