Methods of Assessment of Language Disorders in Childhood	<p>The Centre for lifelong learning of the Cyprus University of Technology, in collaboration with the Department of Rehabilitation Sciences of the University, organised a continuing professional education program titled: “Methods for Assessing Childhood Language Disorders.” The program focused on developing the knowledge and clinical skills required to assess a child with a language disorder. Participants gained an understanding of the nature of these disorders, the assessment process, and the implementation of a comprehensive evaluation using contemporary literature. They learned to identify, describe, and reach an effective diagnosis of related disorders, with the ultimate aim of designing appropriate interventions.</p> <p>Vocational Training 33 Speech-Language Pathologists and Special Educators.</p>	30/5 - 14/6/2025	<a href="https://www.cut.ac.cy/center_lifelong_learning/offered_programs/completed_programs/methods_assessing_cld/">https://www.cut.ac.cy/center_lifelong_learning/offered_programs/completed_programs/methods_assessing_cld/</a>

<p>Successful completion of the training program "Collection and processing of UAS data"</p>	<p>A specialised program for the Department of Antiquities on using drones and LiDAR for monitoring and managing archaeological heritage. Period: September – November 2025 (32 participants from public services and the private sector. Specifically, three cycles of Continuing Professional Development were implemented: the 1st cycle at the Department of Antiquities of Cyprus, the 2nd cycle at the Department of Lands and Surveys, and the 3rd cycle for personnel from various public and private services, with a total duration of 130 hours).</p>	<p>9 - 11/2025</p>	<p><a href="https://www.cut.ac.cy/news/article/?contentId=618600">https://www.cut.ac.cy/news/article/?contentId=618600</a></p>
